

Study program: Economics and Business Management and Business Informatics			
Type and level of studies: Undergraduate studies (first level)			
<b>Course unit: Financial Markets</b>			
<b>Teacher in charge: Milena M. Jakšić</b>			
Language of instruction: English			
ECTS: 7			
Prerequisites: /			
Semester: Summer			
<b>Course unit objective:</b> The aim of studying the course is to provide students with an insight into the fundamentals of modern financial markets, as well as to inform them with the basic characteristics of financial instruments. The supplying student with a categorical apparatus in this field helps to address the key problems related to the functioning of the financial system in a qualified way.			
<b>Learning outcomes of Course unit</b> By studying the subject, the student acquires fundamental knowledge in the field of functioning of modern financial markets. In this way, the student is able to analyze relevant financial problems, to think critically about them and to solve them. Through the analysis and systematization of knowledge gained through theoretical research, students will be able to identify and analyze various problems and issues related to both individual financial markets and the global financial system.
