

Study program : DENTISTRY
Type and level of studies: Integrated academic studies, Level 1/2
Course unit: DERMATOVENEROLOGY
Teacher in charge : Assistant professor Vesna Miličić, MD, PhD
Language of instruction : ENGLISH
ECTS: 4
Prerequisites: Completed course in dermatovenerology
Semester: SUMMER SEMESTER
Course unit objective: Acquiring knowledge and skills in dermatovenerology.
<p>Learning outcomes of Course unit:</p> <p>Knowledge about medical treatment of the most prevalent dermatological and venerological disorders (e.g. psoriasis, chronic eczema, atopic dermatitis, blister disorders, infectious disease of skin and mucous membrane, nevi, skin tumors, venereal diseases, etc.)</p> <ul style="list-style-type: none"> -Knowledge about medical treatment and prophylaxis of the most prevalent dermatological and venerological diseases in population - Knowledge about clinically important adverse drug reactions and drug-drug interactions in dermatovenerology -Skills of patients examination and clinical interview in dermatovenerology -Skills of making appropriate drug choices and tailoring dosage regimens according to the needs of patients
<p>Course unit contents</p> <p><i>Theoretical classes</i></p> <p>Dermatovenerology as a discipline. Basics of dermatovenerological examination and clinical interview. Diagnosis and treatment of chronic eczema. Diagnosis and treatment of psoriasis. Diagnosis and treatment of atopic dermatitis. Diagnosis and treatment of blister disorders. Diagnosis and treatment of infectious disease of skin and mucous membrane. Diagnosis and treatment of skin tumors. Diagnosis and treatment of venereal diseases. Basics of pharmacotherapy in dermatovenerology. Basics of phototherapy. Clinically important adverse drug reactions and drug-drug interactions in dermatovenerology.</p> <p><i>Practical classes</i></p> <p>Principles of patient examination and treatment. Principles tailoring dosage regimens according to a patient's needs. Dosing in children and elderly. Discovering potential drug-drug and drug-food interactions. Causal interpretation of adverse events.</p>

Number of active teaching hours				Other classes
Lectures: 30	Practice: 15	Other forms of classes:	Independent work:	
Teaching methods: Lectures, practice in a clinic, clinical problems solving				
Examination methods (maximum 100 points)				
Exam prerequisites	No. of points:	Final exam	No. of points:	
Student's activity during lectures	30	oral examination		
practical classes/tests		written examination	70	
Seminars/homework				
Project				
Other				

Grading system		
Grade	No. of points	Description
10	95-100	Excellent
9	85-94	Exceptionally good
8	75-84	Very good
7	65-74	Good
6	55-64	Passing
5	< 54	Failing
