

Study program: Law				
Type and level of studies: Master of academic studies				
Course unit: Legal protection of personal data				
Teachers in charge:				
Prof. Dr. Srđan S. Đorđević, full professor,				
Prof. Dr. Dejan S. Matić, associate professor, second examiner				
Asst. Dr. Nikola Ivković, assistant professor				
Luka Petrović, assistant				
Language of instruction: English language				
ECTS: 8				
Prerequisites: No				
Semester: summer semester				
Course unit objective				
The goal of the course is to introduce students to the legal aspects of the process of collecting, processing, storing and protecting personal data, as well as to the various, complex and interconnected legal problems of personal data protection, especially considering the development of new information technologies and the protection of personal data that are processed, exchanged and stored using these technologies. In addition, the goal is for students to learn the basics of privacy protection in the digital sphere.				
Learning outcomes of Course unit				
Students will learn the basics of domestic and international regulations regarding the protection of personal data, and will be able to apply the learned rules in practice, as well as to monitor further development and changes in regulations in the field of personal data protection.				
Course unit contents				
Theoretical aspects				
The concept of human rights in the modern legal order; The right to privacy and the protection of the right to privacy; Personal data and protection of personal data; Institutional and normative framework; Protection mechanisms				
Practical aspects				
Selection of relevant legal practice in the field of data protection; Practice through practical examples and tasks.
